**RAW SEWAGE DUMP FEE**

\$75 Charge for direct dump into waste treatment facility

**COURTESY CONNECTION**

\$25 Charge for water connection for a period not to exceed two (2) days

**FIRE SERVICE CONNECTION FEE – Commercial Only**

<u>Size</u>	<u>Inside City</u>	<u>Outside City</u>
4 Inch Service	\$5,221.00	\$7,210.50
6 Inch Service	\$6,520.50	\$9,821.00
8 Inch Service	\$11,086.00	\$14,375.00
10 Inch Service	\$15,651.50	\$19,607.50

**SPECIAL RATES**

Town Council may negotiate special water and/or sewer rates for any customer classification that makes a significant capital contribution to the System.

**METERED WATER RATES FOR SIGNIFICANT WATER USERS**

Any significant water user shall be entitled to the lower water rate set forth in the Schedule of Water and Sewer Fees. A Significant Water user is any user connected to the Town’s water system that uses more than 500,000 gallons for more per month.

**SEWER RATE ADJUSTMENT FOR INDUSTRIAL USERS**

In the event that an in-town industrial user that is discharging waste water into the public sewer system produces evidence to the Town that more than twenty five (25%) percent of the total volume of water used for all purposes does not reach the public sewer system, then an estimated percentage of total water consumption to be used in determining industrial sewer fees may be approved by the Town Council.

### **EXCESS TREATMENT SURCHARGES**

<u>High Strength</u>	<u>Cost per lb</u>	<u>For Concentrations:</u>
BOD	\$0.3900	> 250 mg/l
TSS	\$0.0450	> 250 mg/l
TKN	\$0.4830	> 15 mg/l
TP	\$0.8470	> 8 mg/l

The “mg/l” (concentration) is converted to “lbs/day” by calculating the industries reported 24 hours composite flow rate multiplied by the number of days discharging in the quarterly period. The mass (lbs/day) is then multiplied by the current surcharge rate and the number of days of discharge.
